GIANCARLO LUCIANO LARIOS INFANTES

Chiclayo, Peru | +51 974 192 628 | giancarlolarios123@gmail.com

Portfolio | LinkedIn | GitHub | GRADEO

Software Developer | Full Stack | React, Next.js and PostgreSQL

PROFESSIONAL PROFILE

Information Systems Engineering student and full-stack developer with experience building and deploying a web application in production. I work with TypeScript, React, Next.js, Supabase and PostgreSQL, implementing authentication, authorization, data operations and responsive interfaces. I use AI tools to support software development, debugging and documentation while remaining responsible for the quality of the result.

EDUCATION

Universidad Católica Santo Toribio de Mogrovejo — Chiclayo, Peru
Information Systems Engineering — *2022 - Present*

PROFESSIONAL EXPERIENCE

CORPORACIÓN XPANDE S.A.C. — Chiclayo, Peru
Technology Intern — *October 2023 - March 2024*

- Diagnosed and resolved hardware and software issues for internal users, supporting the operational continuity of equipment and services.
- Assisted with server and network administration and preventive maintenance of IT infrastructure.
- Collected, cleaned and processed business data with Microsoft Excel to prepare reports for administrative teams.

TECHNOLOGY PROJECTS

GRADEO | Founder and Full-Stack Developer — December 2025 - Present

- Built and deployed a full-stack web platform using Next.js, React, TypeScript, Supabase and PostgreSQL.
- Implemented search, profiles, metrics, moderated reviews and an administrative dashboard with different access levels.
- Built authentication, data validation and row-level security policies to protect information according to user type.
- Developed tools for class schedules, grades, notes and Pomodoro sessions, and maintain the application deployed on Vercel.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java and SQL.

Web development: HTML5, CSS3, React, Next.js, Tailwind CSS, responsive design and reusable components.

Backend and data: Node.js, Supabase, PostgreSQL, MySQL, REST APIs, authentication, authorization and relational modeling.

Tools and deployment: Git, GitHub, Postman, Docker (basic), VS Code, Vercel and Microsoft Excel.

AI-assisted development: Use of AI assistants for code generation, review, debugging and documentation.

Spoken languages: Native Spanish and basic English (A2).
